

# LE NGOC GIAU

## WEB INTERN (ReactJS)

### PROFILE

I am a second-year student majoring in Information Technology, with the amount of knowledge learned from the months and days at school with teachers, friends. I have been able to confidently grasp the amount of information knowledge as well as experience from them. At the same time, I also understood more about the major that I want to do to serve the work factor. I also participated in activities, organized competitions by the school and Ho Chi Minh City for university students, and also did some practical projects to serve the purpose of applying for internships. For those reasons, I want to work in a professional and challenging environment to maximize my potential and contribute to the company's success.

 24/11/2003

 NHA TRANG CITY – KHANH HOA PROVINCE
